A Word from the CEO

To The Taylor Regional community,

As we embark on a new year and see one pass by, I would like to thank all those who have supported the hospital over this past year in which I have had the pleasure of serving you at Taylor Regional. I look forward to growth in our hospital through this next year from all of you in our area. I would like to ensure that communication to the community is a priority, after all this is not my hospital or the employees alone, but this is OUR hospital and we should be very proud to have such a great facility. Hospitals are the economic driver for jobs and industry and are also a stabilizer to current businesses so taking measures to success is of the utmost importance to all of us at Taylor. There are strategic plans and restructuring that we are in the midst of to strengthen our position at Taylor Regional Hospital. Change is not always popular but at times is needed to continue success and strengthen our organization. We will be having community town hall meetings, through the help of Archway. Please check the "Upcoming Events" on the next page, the Taylor Regional Facebook page, or call administration to get these dates. Participation and questions are welcome.

We often hear how hospitals struggle for many reasons and this is true, however, we have taken the stance that we will not be a statistic but the example of how a rural hospital can be successful moving into the volatile and unknown world of healthcare today. There are many things that we are proud of in our accomplishments to this point. We have added all digital radiology equipment, mammogram and most recently a new MRI. These are all things that are needed to diagnose conditions whether it is emergent or clinical diagnostics. We now rival any facility large or small in this capacity. These items were made possible by generous community donations through the Georgia Tax Credit program. This is a program at a cost of zero to the taxpayer but allows Georgia State taxes to be redirected to a rural facility of your choice. It is very heartwarming to see the support that we have received but we still need your help, to help our hospital moving forward. For more information on this initiative please call Karen McLeod at Taylor Regional Hospital (478)783-0329 or visit Georgia Heart at www.georgiaheart.org. We are stronger together and I look forward to an even better year and days to come.

Warmest Regards and Many Thanks,

Jonathon L. Green, CEO
Taylor Health Care Group

GEORGIA HEARTSM
HOSPITAL PROGRAM
Helping Enhance Access to Rural Treatment

Georgia HEART Rural Hospital Tax Credit Program

Help improve health care in your community by contributing to Taylor Regional Hospital or Bleckley Memorial Hospital through the Georgia HEART rural hospital tax credit opportunity!

Our 2020 goal is \$1 million dollars! Help us reach our goal, take control of your state tax dollars and put them to use in your own community. We want to turn the heat up and raise this thermometer to the top.

Your contribution will increase our hospital funding and our ability to provide for the health care of individuals in our community!

For more information about Georgia HEART rural hospital tax credit program, please visit www.georgiaheart.org or contact Karen McLeod at (478)783-0329.
